

EB-5N

Auxiliary Ear Bar for Mice

Auxiliary ear bars for mice specific to the SR series.

Used with SR series stereotaxic instruments, this auxiliary ear bar is attached before fixing the mouse on to the fixing clamp, making fixation simple. Even if the animal is detached and the re-fixed, repeated fixation is quick and easy. Smooth, uncomplicated clamping with one hand is much easier by spring.

Specification

Dimensions/Weight	W48 ~ 62 × D37 × H10mm, 35g
